

**Fw: Request for receiving water monitoring report prepared for NPDES permit**

**Brian Nickel** to: wwtp

10/05/2012 11:24 AM

Bill:

I received your fax, and I realize you may have sent me everything you had, but I don't have all of the data that should have been collected, according to the permit requirements.

The permit required river sampling for one year. I have some data for six months (April, June, July, October, November and December of 2002). I have complete data for November and December 2002.

I'm **missing** the following data for the other months:

- October 2002: Hardness, nitrate, nitrite, orthophosphate.
- July 2002: TKN, nitrate, nitrite, orthophosphate
- June 2002: TKN, nitrate, nitrite, orthophosphate
- April 2002: Hardness

Do you have the data for the other six months, and for the missing parameters for the months listed above? If so, could you please send that to me?

Thanks,

Brian Nickel, E.I.T.

Subject: Request for receiving water monitoring report prepared for NPDES permit

Bill:

As we discussed on the phone this morning, I'm working on the reissued NPDES permit for the City of Sandpoint.

The prior permit required some sampling of the receiving water, however, I was not able to find the report from that monitoring in our files. The receiving water monitoring requirements are on Pages 5 - 6 of the permit (see link below):

[http://yosemite.epa.gov/r10/water.nsf/NPDES+Permits/Current+ID1319/\\$FILE/ATTZBFE1/ID0020842%20FP.pdf](http://yosemite.epa.gov/r10/water.nsf/NPDES+Permits/Current+ID1319/$FILE/ATTZBFE1/ID0020842%20FP.pdf)

I was hoping you still had the report that was required by the permit, for this sampling. If you do have it, could you please send it to me? If you don't have the report, the results directly from the laboratory would also be acceptable, for my purposes.

Thank you,

Brian Nickel, E.I.T.
